

ASHISH KUMAR

FULL STACK DEVELOPER | REACT.JS, NODE.JS, UI/UX & WEB APPLICATIONS

Muzaffarnagar, Uttar Pradesh, India | +91 63985 20345 | ashishprajapati7729@gmail.com

LinkedIn: linkedin.com/in/ashish-kumar-fullstack | GitHub: github.com/ashishkumar-code

PROFESSIONAL SUMMARY

Full Stack Developer and BCA graduate with hands-on experience building responsive, database-driven web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Express.js, MySQL, and MongoDB. Built reusable UI components, dashboards, forms, REST APIs, authentication systems, and role-based workflows for CRM and job-platform projects. Experienced in debugging, root-cause analysis, API testing, deployment support, performance optimization, and translating business requirements into scalable, maintainable application features.

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML5, CSS3

Frontend Technologies: React.js, Tailwind CSS, EJS, responsive web design, reusable UI components, forms, dashboards, UI implementation

Backend Technologies: Node.js, Express.js, REST APIs, server-side services, business logic

Databases: MySQL, MongoDB, Mongoose, data modeling, CRUD operations, query handling

APIs & Authentication: REST API development, API integration, JWT, authentication, authorization, role-based access control

Developer Tools & Practices: Git, GitHub, Postman, debugging, testing fundamentals, deployment support, CI/CD concepts, performance optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | GogalEdu Academy

Feb 2026 - Present | Noida, Uttar Pradesh | Hybrid

- Develop and maintain responsive web application features using React.js, JavaScript, Node.js, Express.js, MySQL, and MongoDB to support business workflows.
- Build reusable UI components, forms, dashboards, and role-based interfaces with a focus on usability, responsiveness, and consistent user experience.
- Design and integrate REST APIs, authentication and authorization logic, database operations, and secure backend services for frontend-backend communication.
- Investigate defects, identify root causes, validate fixes, and improve application reliability, maintainability, and performance.
- Test APIs with Postman, manage source code with Git/GitHub, and support deployment, release validation, and production issue resolution.

SELECTED PROJECTS

Trackfield CRM - Full Stack CRM & Workforce Platform

- Developed responsive React.js interfaces and Node.js/Express.js APIs for leads, employees, attendance, permissions, approvals, reporting, and field-sales workflows.
- Implemented JWT authentication, role-based access control, reusable components, form validation, API integrations, and MySQL/MongoDB-backed business features.
- Designed workflows for geolocation, maps, route planning, CSV imports, dashboards, and operational reporting to support sales and workforce management.

JobAdda - Job Portal & AI Resume Platform

- Built responsive user and administrator modules for job listings, applications, referrals, wallet requests, profiles, and dashboard reporting.
- Developed Node.js/Express.js APIs with MySQL data flows, JWT authentication, validation, payment integration, AI-assisted resume generation, and PDF delivery.
- Resolved production issues involving authentication, database queries, API responses, deployment configuration, and cross-device interface behavior.

EDUCATION

Bachelor of Computer Applications (BCA) | Maa Shakumbhari University

D.A.V. (PG) College, Muzaffarnagar | 2023 - 2026 | CGPA: 7.71 | Completed

Advanced Diploma in Information Technology (ADIT) | IT Computer Education

2018 - 2019

CERTIFICATIONS

Node.js + Express.js + MongoDB; Graduate Employability Enhancement Training
